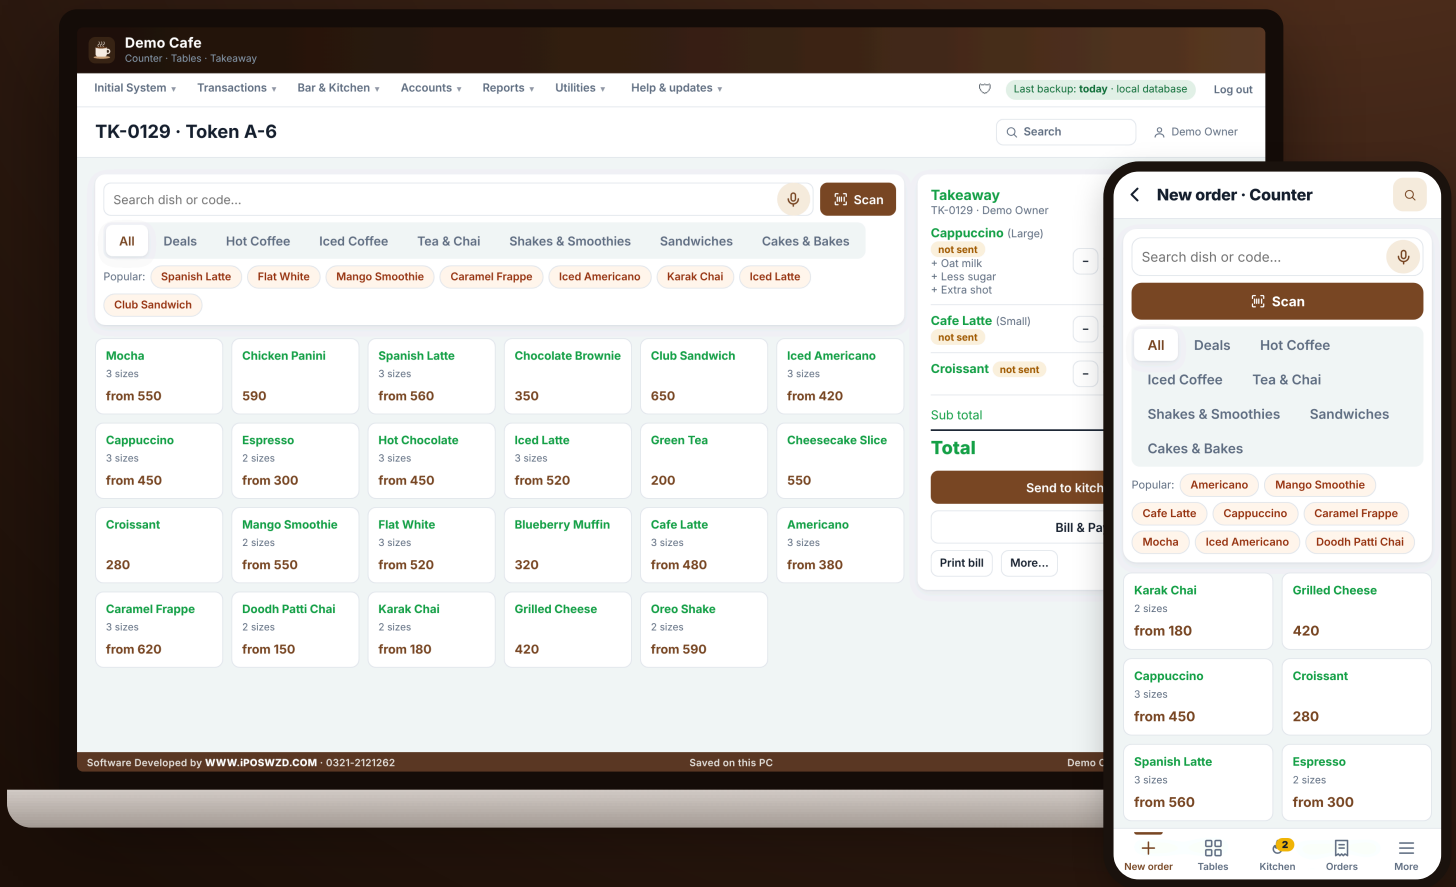
FOR COFFEE SHOPS, CHAI DHABAS, JUICE BARS & BAKERY CAFES

Cafe Manager

Take the order at the counter, give a token, and the barista sees it at once - with the cup size, milk, sugar and extras. Every cup takes its beans, milk and cup out of stock, and the 10th coffee comes free on the stamp card.

Counter + token | **Sizes & modifiers** | **Barista screen** | **Recipes by cup size** | **Stamp card** | **Dine-in, takeaway & delivery**



Works offline on the shop PC · phone and tablet in the browser · data on your own device · optional cloud backup

Download for Windows: download.iposwzd.com | **Try the demo: cafe.iposwzd.com** | **From Rs 45,000**

MADE FOR THE CAFE COUNTER

Fast at the counter, exact behind the bar

A cafe sells the same drink in three sizes with a dozen ways to make it, at a rush hour when the queue does not wait. Cafe Manager is built on our Restaurant Manager and tuned for exactly this: a quick counter with tokens, a clear screen for the barista, and stock and profit worked out cup by cup.

AT THE COUNTER

Order, token, pay

- Tap a drink, pick **size and modifiers**
- Enter adds it, the next drink follows
- A **token** for every counter order
- Cash, card, JazzCash / Easypaisa, credit
- Split a payment across methods

BEHIND THE BAR

The barista sees it all

- Bar and kitchen as separate stations
- New · Making · Ready columns
- Size, milk, sugar and extras on every ticket
- Allergy shown in red, notes for the barista
- KOT slips on the bar or kitchen printer

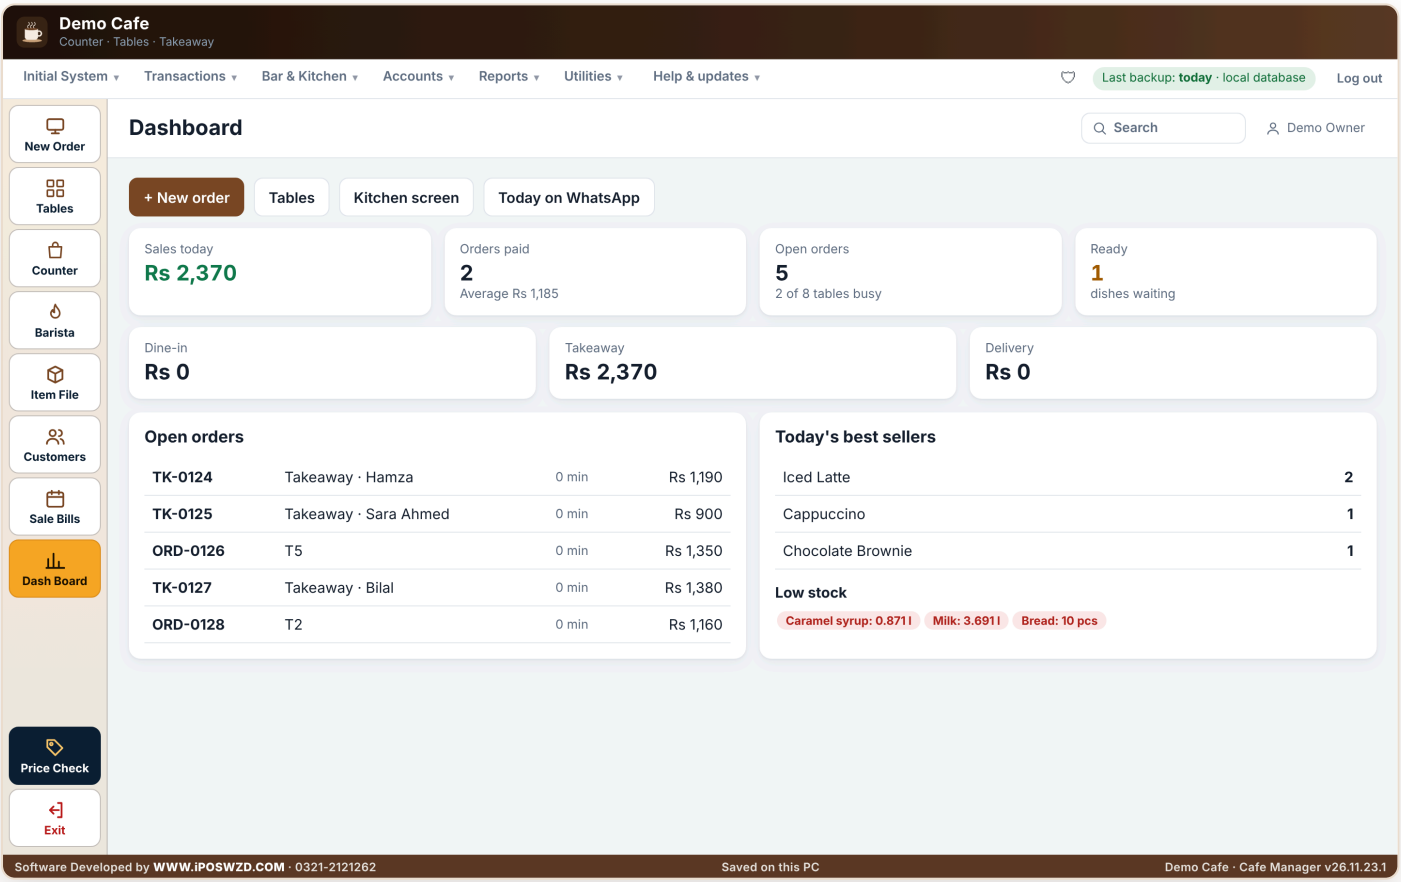
FOR THE OWNER

Every cup counted

- Recipe for each cup size
- Food cost and gross profit on every dish
- Low stock alerts (beans, milk, cups)
- Owner view, day close, cash drawer
- Activity log and approval passwords

WHO IT'S FOR

Coffee shops & cafes · **Tea & chai dhabas** · **Juice & shake bars** · **Bakery cafes**



The cafe dashboard

Sales today, orders paid, open orders, drinks ready to collect, dine-in, takeaway and delivery at a glance, today's best sellers and low stock.

Offline

Works without internet. Your data stays in your cafe.

The counter, the barista screen and the stock all run on the shop PC even when the internet is off. Add cloud backup or phones whenever you want.

WHAT IS INSIDE

Everything a cafe needs, in one app

One program for the counter, the bar, the kitchen and the owner - on the shop PC, with phones and tablets in the browser.

Counter & tokens

- **Counter orders** with a token number for the day
- **Dine-in tables**, takeaway and delivery
- **Popular items** row and category tabs
- **Search or scan** packed items by barcode
- **Hold, send to kitchen,** bill and pay

Sizes & modifiers

- **Sizes:** Small, Medium, Large with own prices
- **Groups:** Milk, Sugar, Syrups, Extras
- **Rules:** pick one or many, required or not
- **Extra price** per modifier (oat milk +80)
- **Note and allergy** for the barista

Bar & kitchen

- **Barista / kitchen screen** by station
- **Start making → Ready → Served**
- **Token screen** on a TV for collection
- **KOT printer** for bar or kitchen slips
- **Sold-out list** kept up to date

Recipes & stock

- **Recipe per dish** - scaled for each cup size
- **Modifiers use stock** too (oat milk, syrups)
- **Purchases** from suppliers, wastage, counts
- **Low stock** and price history
- **Food cost and margin** for every item

Customers & loyalty

- **Stamp card:** the 10th drink free
- **Customers** with mobile, orders and spend
- **Customer credit** with limits
- **Gift vouchers** and WhatsApp promos
- **Happy hour and deals**

Money & control

- **Shifts,** cash in / out, cash drawer
- **Close day** and bank deposits
- **Expenses** and owner view
- **Duplicate bill,** cancel and change payment
- **Reports:** items, food cost, voids, prep list

DINE-IN

Tables and QR menu

Tables by area with live status, and a QR menu sheet to print for every table.

MORE WAYS TO SELL

Takeaway & delivery

Delivery with rider and charge, reservations, catering orders and gift vouchers.

BILLS

Receipt with token

80 mm receipt with the token, sizes and extras, stamps earned, or an A4 bill.

S · M · L

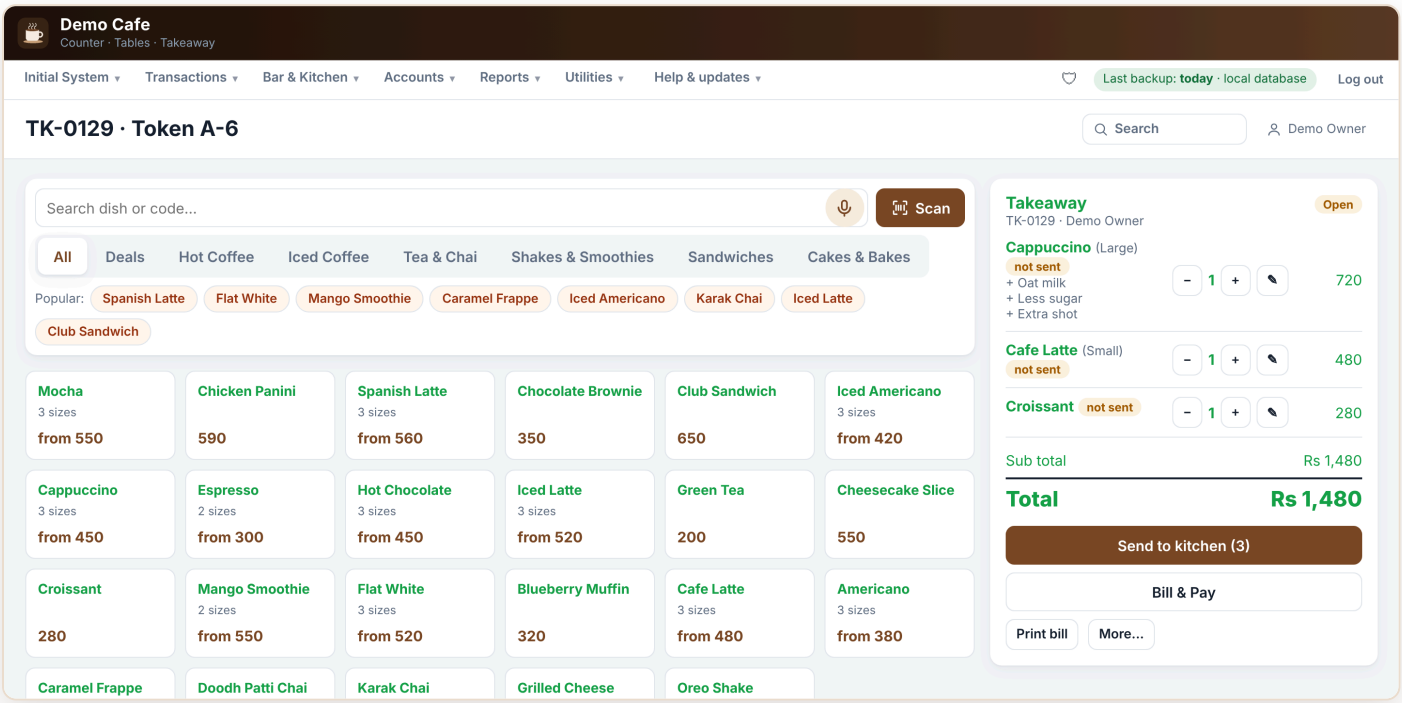
One drink, three cup sizes - each with its own price and recipe

A Large Cappuccino uses more beans and milk than a Small. Cafe Manager takes the right amount out of stock and shows the real profit of every size.

DESKTOP

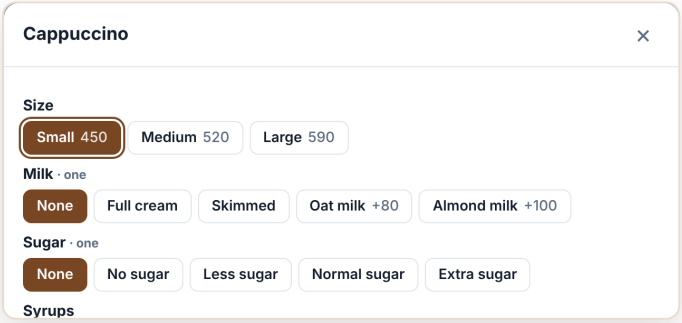
A quick counter for the rush hour

Tap the drink or type its name, choose the size and the extras, press Enter - and the next drink follows. Send the order to the bar with one button; the customer gets a token and pays at the counter.



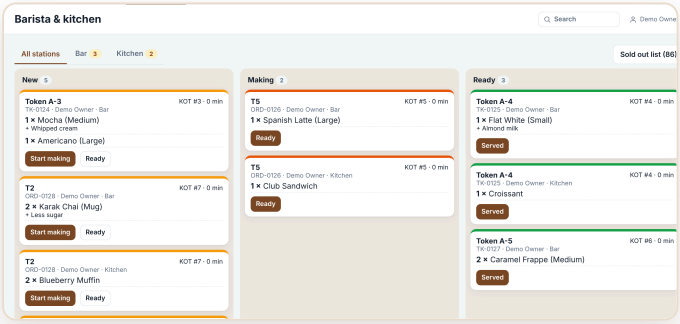
Counter with token

Category tabs and popular drinks on top, sizes and "from" prices on every tile, the order on the right with size, milk, sugar and extras, Send to kitchen, Bill & Pay.



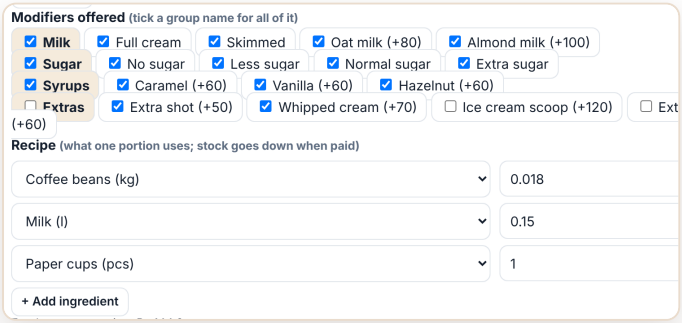
Size & modifiers

Size, milk and sugar (pick one), syrups and extras (pick many), quantity, note and allergy.



Barista & kitchen screen

Bar and Kitchen stations, New · Making · Ready, token and size on every ticket.



Modifiers and recipe of a drink

Tick the modifier groups a drink offers and set what one cup uses - Medium and Large take more by their size.

Pay with the stamp card

The 10th drink comes off the bill; cash, card, wallet, bank or credit, change shown at once.

PHONE & TABLET

Take orders on the phone, watch the cafe from anywhere

Waiters take table orders on a phone, the barista can use a tablet behind the bar, and the owner sees today's sales on the go - with cloud sync, the same records everywhere.

JazzCash / Easypaisa             1,890
-------------------------------------------
 Thank you! Your 10th coffee is on us - ask
          for your stamp card.
        Printed 23-Nov-2026 10:26
```

Receipt with token

80 mm thermal receipt with the token in large letters, sizes and extras, free drink and stamps earned, and your own footer.

Bar & kitchen slips

KOT slips go to a separate bar or kitchen printer - set once per PC in Settings.

WhatsApp

Send the bill, a promo or the day's summary to the owner on WhatsApp.

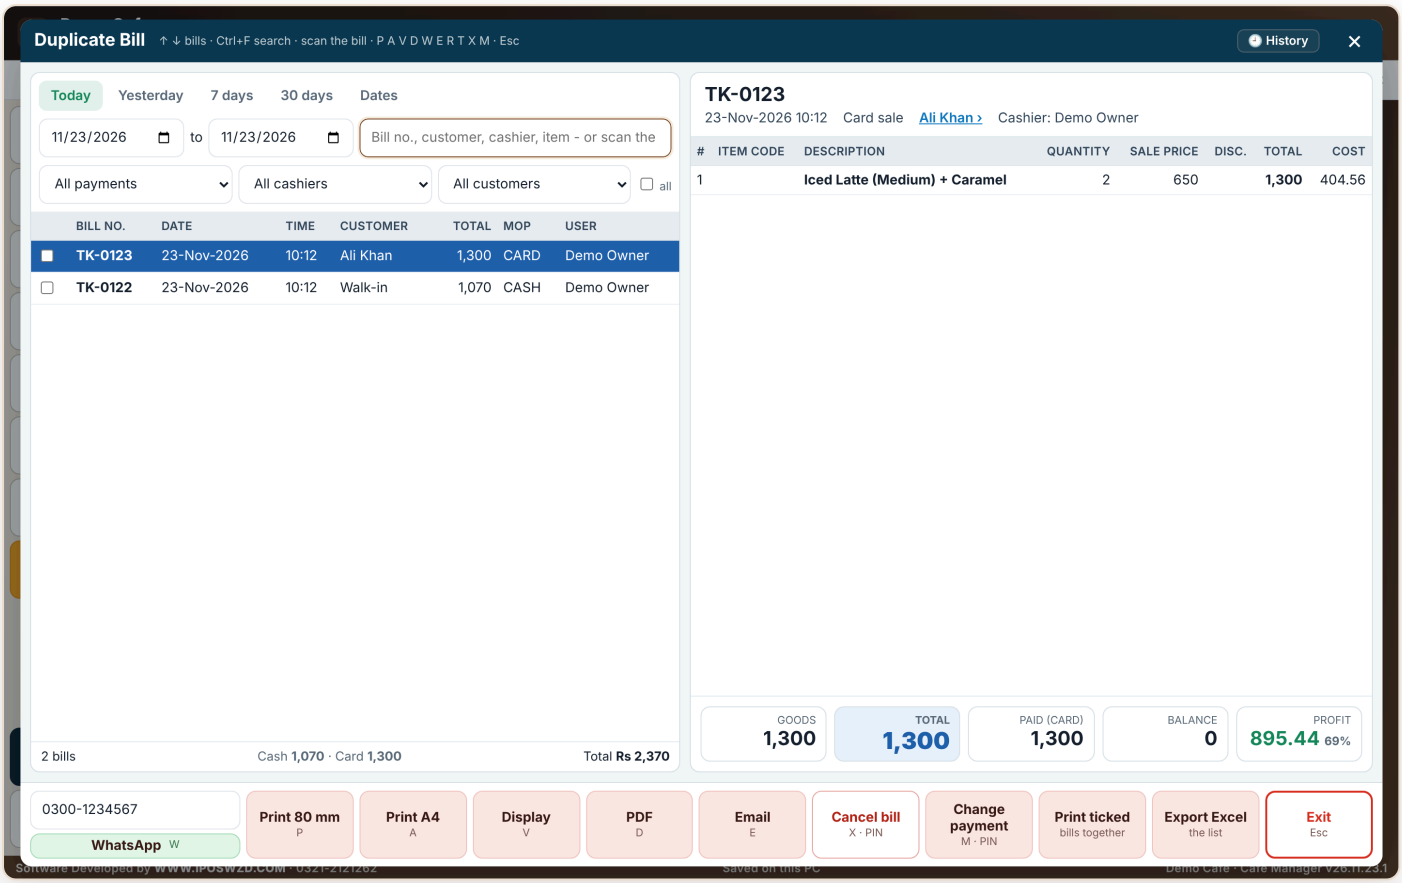
Token screen

A TV shows Preparing and Ready - please collect, so customers know when to come.

SPEED & CONTROL

Hardly any mouse, every cup accounted for

The same top menu as every iPOS.NET app: Initial System, Transactions, Bar & Kitchen, Accounts, Reports, Utilities. Enter moves to the next box, F10 saves, and the Duplicate Bill window finds any bill to reprint, cancel or change payment.



Duplicate Bill

Bills by date, payment, cashier and customer; reprint marked DUPLICATE COPY, A4 or PDF, email or WhatsApp; cancel with stock and stamps given back; change payment with the owner's approval; profit from recipes for the owner.

KEYBOARD

Quick keys

Enter Next box / add · **F10 Save** · **Ctrl+Enter Save** · **Ctrl+F Find a bill** · **↑ ↓ Choose a bill** · **Ctrl+Shift+Y History** · **Esc Close**

- Tap a drink, Enter adds it with the chosen size
- Scan a packed item's barcode on the counter
- Search by voice on the phone

STAFF & SECURITY

Everyone sees only what they should

- Staff login with name and PIN, roles and rights
- Owner, manager, cashier, waiter and barista
- Approval password for cancel, price, stock and discount
- Activity Log: every change with who, when and what
- Suspicious changes flagged; deleted records can be restored
- Cost and profit hidden from staff
- Backup reminder, PC backup and cloud backup
