WHY DEXCON

Every client PC, **one click away**

A support team keeps hundreds of AnyDesk IDs and passwords in notebooks, chats and shortcuts. Dexcon keeps every client PC in one encrypted vault, finds it in a second, and connects with one click.

ON A SUPPORT CALL

Connect

Find it, click it.

- One-click connect with saved ID and password
- AnyDesk or RustDesk per PC
- Search by client, city, phone or ID
- Several PCs per client

FOR THE TEAM

Organise

Every client in order.

- Groups by area, city or software
- Notes for every client
- Connection history per client
- Imports your AnyDesk shortcuts

FOR THE OWNER

Protect

Passwords stay locked.

- Master password with idle auto-lock
- AES-256-GCM encrypted vault
- Password age shown per PC
- Encrypted backup and restore

WHO IT'S FOR

IT support shops

POS software dealers

Computer repair shops

Network installers

Software houses

Office IT teams

Stop searching, start fixing

Built for support desks that connect to client PCs all day and cannot afford a lost password or a leaked list.

FEATURES

What it does

One-click connect, AnyDesk & RustDesk

Click connect and Dexcon opens the remote tool
Saved ID and password are passed for you
Each PC set to AnyDesk or RustDesk

Search & groups

Search by client, shop, city, phone, ID or notes
Groups by area, city or software type
Imports your AnyDesk desktop shortcuts in one go

Master password & auto-lock

Master password opens the vault
Auto-lock when the PC is left idle
Passwords stay hidden behind dots

Several PCs per client

Counter, back office, server under one client
Each PC keeps its own ID
Client record with shop, city and phone

Notes, history & password age

Notes on every client
Connection history of who connected when
Password age shown so a stale one is obvious

Encrypted vault & backup

AES-256-GCM encryption of the vault
PBKDF2-SHA256 key from your master password
Backup and restore to a single encrypted file
