MADE FOR RESTAURANTS

Every table served, every order on time

Orders get lost between the waiter, the kitchen and the counter.
Restaurant Manager takes the order at the table, sends it to the kitchen screen, prints the bill, and keeps your stock and cash right at the end of the day.

AT THE TABLE

Orders

Fast for waiters.

- One New Order page: dine-in, takeaway or delivery
- Tables turn yellow or red when guests wait too long
- Popular dishes one tap away; allergy flag
- Hold starters and mains, fire when ready
- Customer asks for the bill: the table shows BILL

IN THE KITCHEN

KOT

No shouting across the pass.

- Kitchen, Bar and Grill stations with their own screens
- Separate KOT slip for every station
- Allergy shown in red on screen and slip
- Kitchen marks dishes sold out (86 list)
- Late orders turn red

FOR THE OWNER

Control

Know where money goes.

- Recipes cut stock when a bill is paid
- Auto purchase list, WhatsApp to suppliers
- Daily summary sent to your WhatsApp
- Manager PIN for discounts and voids, name logged
- Reports by day, dish and waiter

WHO IT'S FOR

Restaurants & dhabas

BBQ & karahi houses

Fast food & burger joints

Cafes & bakeries

Pizza & shawarma points

Food courts & hotels

**Works on the counter PC
and on every waiter's phone**

Restaurant Manager runs in the browser on PC and phone and keeps taking orders when the internet drops. With cloud sync, waiters, counter and kitchen see the same tables.
