FOR RICE SELLERS & PROCESSING MILLS

RiceMill Pro

From **paddy** to **profit**.

Kanda slips, paddy purchase, milling yield, godown stock, sale invoices and every party's khata - in one app that works even when the internet doesn't.

 HOW THE MILL RUNS ON RICEMILL PRO

Follow every grain, from the **kanda** to the **khata**

Each truck, bill and batch is linked. Weigh the paddy, buy it, mill it, store it and sell it, and the stock, yield and every party's balance update on their own.

1

WEIGHBRIDGE

Kanda slip

First weight when the truck arrives, second when it leaves. Net weight, kanda fee and a slip for the driver - no scale register needed.

2

PADDY PURCHASE

Fair weight, clear bill

Bardana, moisture above the allowed %, kaat and other cuts come off by themselves. Labour, dalali, market fee and freight are taken from the payable.

3

MILLING

Know your yield

Paddy in, rice, broken, husk and bran out. See the yield % of every batch and the loss - and which variety gives the best out-turn.

4

GODOWNS

Stock in maund & bags

Paddy yard, main godown, finished rice store - stock by item and by godown, transfers and stock corrections, with the value.

5

SALES

Invoice + gate pass

Rice and by-products by bags and weight, freight and discount, cash or credit. The gate pass goes with the truck - without rates.

6

ACCOUNTS

Every party's khata

Farmers, arhtis and buyers with their running balance - lena and dena at a glance, cash book, bank, expenses and profit.

Works **without internet**, keeps a **backup by itself**

The office PC keeps every record in its own database file with daily automatic backups - power cuts and internet outages don't stop the kanda or the billing. Phones and branches share data through iPOS Cloud Sync.

MADE FOR

Rice shellers

Processing mills

Sella / steam plants

Paddy traders & arhtis

Mills with a kanda

Multi-mill owners

Rates in **maund (40 kg)**, **kg** or **ton** - chosen by the mill.
Bills in English or Urdu.

FEATURES

Everything a mill needs, **packed** in one app

WEIGHBRIDGE

KANDA

Kanda slips

- **1st and 2nd weight** with time, vehicle, driver, party, item and bags
- **IN or OUT** - loaded truck arriving or empty truck loading
- **Waiting list** of trucks for the second weight, badge on the menu
- **One click** turns a slip into a purchase bill or a sale

PURCHASE

MUNJI

Paddy purchase

- **Gross - tare - bardana** per bag - moisture - kaat = net weight
- **Rate per maund, kg or ton**; labour, dalali %, market fee, freight
- **Paid now** in cash, bank, cheque, JazzCash or Easypaisa
- **Bill** on 80 mm or A4, English or Urdu, with the balance

MILLING

YIELD

Milling batches

- **Paddy in** from any godown, **output** of rice, broken, husk, bran
- **Yield %** of each output and the loss, with a colour bar
- **Electricity, labour** and other cost per batch and per maund
- **Yield report** by paddy variety

STOCK

GODOWN

Stock & godowns

- **Stock by item and by godown** in maund, kg and bags
- **Godown transfers** and stock corrections with a reason
- **Stock value** at your own rate, low-stock warning
- **Paddy varieties**, rice grades and by-products as items

SALES

BILTY

Sales & billing

- **Many items per invoice** - bags × kg per bag = weight
- **Stock check** per godown, **credit limit** per buyer
- **Approval** for a rate below the list or a discount
- **Invoice + gate pass** (no rates), WhatsApp to the buyer

ACCOUNTS

KHATA

Ledgers, cash & profit

- **Party ledgers** with running balance, Dr / Cr, statements
- **Payment & receipt vouchers**, cash book, bank accounts
- **Expenses**, owner drawings and other income
- **Profit & loss**, day book, receivable / payable, CSV

PADDY PURCHASE

Every kilo accounted for

Type the kanda weights, bags and moisture. RiceMill Pro works out the net weight and the payable the same way every time – no calculator, no arguments at the counter.
